Mr. Ruben Moya, Superfund Remedial Project Manager
Superfund AR/LA Enforcement Section (6SF-RA)
U.S. Environmental Protection Agency
1445 Ross Avenue
Dallas, Texas 75202

**Subject: Monthly Progress Report – September 2012
Arkwood, Inc. Site, Omaha, Arkansas**

Dear Mr. Moya:

Pursuant to Section IX (B) of the corrected Consent Decree in this matter, the following letter report is Millbrook Distribution Services' (MMI) monthly progress report.

I. CURRENT ACTIVITIES

The following is a general description of Work (as defined in the Consent Decree) activities commenced or completed during this reporting period:

During September, we operated the main treatment system, collected operational samples and conducted Site maintenance activities. In addition to collecting samples for laboratory analysis of pentachlorophenol, field samples were collected to measure pH, temperature and dissolved oxygen. At the request of the ADEQ, the effluent sample collection location will be documented each month since it will vary depending on flow conditions. Injection of non-ozonated water on the main site was discontinued prior to the sample collection. Water samples were collected on September 24, 2012. The analytical data was forwarded to you and Mr. Mark Moix of the ADEQ when it was available. A summary of the data is attached for reference. Samples at the spring mouth and weir will continue to be collected once per month.

II. PROJECT DATA
Attached.

III. PROJECTED ACTIVITIES

October: MMI plans to continue ongoing operations and Site maintenance activities. A response to the additional comments from the EPA dated August 22, 2012 on the groundwater remediation summary will be submitted by October 12, 2012. In addition, an evaluation of the affect on the Arkwood Site for the EPA's recent change in dioxin standard is being prepared for submittal to the agencies.

November: MMI plans to continue ongoing operations and Site maintenance activities.

December: MMI plans to continue ongoing operations and Site maintenance activities.

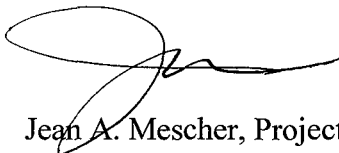

IV. PROBLEMS ENCOUNTERED OR ANTICIPATED

None.

I certify that the information contained in or accompanying this submission is true, accurate, and complete to the best of my knowledge, information and belief, and that I, as project coordinator, have made reasonable inquiry into its veracity.

If you have any questions regarding this monthly progress report, please do not hesitate to contact me at (608) 848-4134.

Sincerely,

Jean A. Mescher, Project Coordinator
Director, Environmental Services

Enclosure

Copy:

- Mark Moix, ADEQ*
- EPA Assistant Regional Counsel (6C-WA)* (w/o enclosure)

CASE NARRATIVE

Sample Delivery Group – 1209285

Qualified Analytical and/or Quality Control Results are Discussed Below:

Semivolatiles Analysis:

The three compounds labeled (surr) on the attached final report are "surrogates." Recovery of surrogates is for lab use only to determine the effectiveness of the extraction procedure; surrogate recoveries are not analytical results. The three surrogate compounds are as follows: 2,4,6-tribromophenol, 2-fluorophenol, and Phenol-d5.
